

Enrichment Classes – Winter 2010

Mondays – TEK with LEGOS (no class 1/18, 2/15)

TEK is with LEGO's is back. (Teaching Engineering to Kids through LEGOS). The students will build many fun things with LEGOS using pulleys and motors. They will learn basic engineering while having a great time with this totally hands on class. If your child has taken LEGO'S before they will be given new more challenging projects. This is a preview of our LEGO camps during the summer. (1st grader's may join if they have taken a LEGO camp before).

Grades 2-5 3:30pm-5:00pm
Cost: \$150

Tuesdays - Indigital Kids (Continued from the fall session)

BEGINS AGAIN JANUARY 5TH! (no class 2/16)

This is a wonderful new class that will be fun and give children the opportunity to learn the history of percussion, make instruments, digital composition, writing and recording music. Children will get to experience a variety of percussion instruments, will have guest musicians give demonstrations, and the class will culminate in a CD recorded by the students. This class is going to be hands on and will allow the children's creativity shine.

Grades 1 2:30pm-3:30pm
Grades 2-5 3:30pm-4:30pm

Wednesdays – Art From Around the World 2nd - 5th graders
